FIRE.

Toledo, Nov. 28.—The stave factory, saw and planing mill of Scheider Bros., at Webbs, a small station on the Pennsylvania Railway, a few miles east of here were destroyed by fire last night. Loss $10,000.

TERRIBLE TORNADO.

Louisville, Nov. 28.—A fearful tornado played havoc in the south eastern portion of the city this morning. Those who saw it say that one immense black cloud came up from the southwest at four minutes to 6 o'clock. It was a black and gloomy spectacle. As it neared the city it was seen to be revolving at a fearful rate. Directly a deluge of rain began to fall, lit up by a red electric light. It seemed, say those who saw it, that the world was coming to an end, and doubtless the people in the track pursued by the whirlwind, truly thought so.

It struck the city at the far end of Fourth street, Rev. Stuart Robinson's house being one of the

FIRST TO SUFFER.

Thence it continued in a northeastern direction, leaving the city at Cave Hill.

The Smith fence of Central Park was all blown down.

The old Louisville base ball park was compleeely riddled, not the least portion of the fence is standing except half of the east side. The roof of the grand stand is smashed into kindling wood and blown away.

The ground and street are strewn with broken boards and timbers.

Dr. Stuart Robinson's house is slightly damaged, about a third of the tin roof being blown off.

M. S. Fishback's carpet beating establishment, on Third street, is completely demolished. The building was frame and nothing is now standing but the foundation. The loss is $700.

The suburb Brownstown, is badly damaged.

ROOFS, WINDOWS AND TREES

suffered generally.

Fred Lewis's brick house on Third street had the roof blown off.

The side of Phil Belmer's house was blown in.

Tompkin's ice house between 2nd and 3rd had the roof torn off and generally smashed.

The next place to suffer was Laval Crystal spring distillery at the end of 1st street. Here the wind from across the commons had a full sweep and

GREAT DAMAGE WAS DONE.

A new brick warehouse was completely blown down, not a brick being left standing of the south and west walls. The warehouse contained 300 barrels of whisky, only three of which were destroyed. The tin roof of the ware house was blown and torn into fragments like so much paper. Portions of it were carried into a field a quarter of a mile away.

The main distillery building which is frame was also damaged slightly, the chimneys being blown down and roofing injured. The total loss to the distillery will reach $500.

F. Morratt, florist of First and Ormsby avenues suffered badly, the roof being torn from his house and one of his conservatories greatly damaged.

From here the tornado seemed to

TAKE A LEAP

to Mechanic street, between Preston and Shelby, and here it was in its fiercest fury. There is hardly a house on the street named that is not more or less damaged. The street is covered with shingles and broken boards.

Adam Schuster's two-story brick had its roof carried away and several windows blown in. The west side was badly damaged.

SUICIDE.

Cincinnati, Nov. 28.—About half-past 1 o'clock this morning at a bal masque at Robinson's Opera House, a variety actress giving her name as Ada Clifton, and her home as Columbus, O., attempted suicide by shooting herself in the region of the heart with a small pistol. She had been drinking freely and was so stupified as to be unable to give a correct account of herself. She was removed to a hospital, and the wound examined, but at present writeing, the location of the bullet is not ascertained.

Magoon, this morning, being asked for a confession, said he had none to make and that he hoped to meet his family in Heaven. He leaves seven children.

Magoon declared that he would not ascend the scaffold, but would have to be carried up by the sheriff. He made a long explanation of the crime, and said Mrs. Perrine was the guilty one.

ADDITIONAL CITY NEWS.

JACK'S JOY.

Swayne, the Alleged Murderer, Admitted to Bail.

His Security Fixed at the Sum of $5,000.

On last Wednesday application was made by the Colericks, counsel for Jack Swayne, for a writ of *habeas corpus* to have the prisoner admitted to bail. The application was made upon the evidence introduced in the trial, which trial, although null and void, yet the evidence is to all intents and purposes in. Judge Borden, after considering the matter said he would continue it until this morning at half past 10 o'clock, when, under the prosecution would bring before the court a witness who would say that he *saw* Jack Swayne stab John Sheehy, he would admit him to bail. Court met this morning pursuant to adjournment, when his honor asked the counsel *pro* and *con* whether they had any new witnesses to offer or anything to say why the prisoner should not be at once admitted, the answer being in the negative, the court decided to admit the prisoner to bail.

Arguments then begun on fixing the amount. The defense opened by saying that $5,000 would be amply sufficient under the circumstances. The state wanted the bail fixed at $12,000. The court, after refering to several well adjudged cases of a simular character, fixed the bail at $5,000 and ordered the clerk to so make the entry, and should at once proceed to make up the record. In the meantime, the prisoner was remanded to jail until the record could be made and the bond produced, which will be some time to-day, and if after careful scrutiny, the bond is considered sufficient, he would order the prisoner to be released. Swayne has been in jail since July 5th.

"Do not issue license to Mr. Dumons and Miss Perraquay, they being cousins."

The contract made by the commissioners with Cunningham authorizes the payment to him by the treasurer of 25 percent of all back taxes recovered by him. There has been no decision as yet.

Louisville Visited This Morning by a Frightful Tornado.

RELIEF FOR THE IRISH.

St. Louis, Nov. 28.—A mass meeting of Irishmen has been called for December 30th, to advance the project of raising funds and providing for the destitute Irish in Ireland. An executive and sub committee, composed of leading Irish citizens has been appointed to carry out the benevolent enterprise, and the prospects are that a large amount of money will be raised.

FIRE.

Toledo, Nov. 28.—The stave factory, saw and planing mill of Scheider Bros., at Webbs, a small station on the Pennsylvania Railway, a few miles east of here were destroyed by fire last night. Loss $10,000.

TERRIBLE TORNADO.

Louisville, Nov. 28.—A fearful tornado played havoc in the south eastern portion of the city this morning. Those who saw it say that one immense black cloud came up from the southwest at four minutes to 6 o'clock. It was a black and gloomy spectacle. As it neared the city it was seen to be revolving at a fearful rate. Directly a deluge of rain began to fall, lit up by a red electric light. It seemed, say those who saw it, that the world was coming to an end, and doubtless the people in the track pursued by the whirlwind, truly thought so.

It struck the city at the far end of Fourth street, Rev. Stuart Robinson's house being one of the

FIRST TO SUFFER.

Thence it continued in a northeastern direction, leaving the city at Cave Hill.

The Smith fence of Central Park was all blown down.

The old Louisville base ball park was compleeely riddled, not the least portion of the fence is standing except half of the east side. The roof of the grand stand is smashed into kindling wood and blown away.

The ground and street are strewn with broken boards and timbers.

Dr. Stuart Robinson's house is slightly damaged, about a third of the tin roof being blown off.

M. S. Fishback's carpet beating establishment, on Third street, is completely demolished. The building was frame and nothing is now standing but the foundation. The loss is $700.

The suburb Brownstown, is badly damaged.

ROOFS, WINDOWS AND TREES

suffered generally.

Fred Lewis's brick house on Third street had the roof blown off.

The side of Phil Belmer's house was blown in.

Tompkin's ice house between 2nd and 3rd had the roof torn off and generally smashed.

The next place to suffer was Laval Crystal spring distillery at the end of 1st street. Here the wind from across the commons had a full sweep and

GREAT DAMAGE WAS DONE.

A new brick warehouse was completely blown down, not a brick being left standing of the south and west walls. The warehouse contained 300 barrels of whisky, only three of which were destroyed. The tin roof of the ware house was blown and torn into fragments like so much paper. Portions of it were carried into a field a quarter of a mile away.

The main distillery building which is frame was also damaged slightly, the chimneys being blown down and roofing injured. The total loss to the distillery will reach $500.

F. Morratt, florist of First and Ormsby avenues suffered badly, the roof being torn from his house and one of his conservatories greatly damaged.

From here the tornado seemed to

TAKE A LEAP

to Mechanic street, between Preston and Shelby, and here it was in its fiercest fury. There is hardly a house on the street named that is not more or less damaged. The street is covered with shingles and broken boards.

Adam Schuster's two-story brick had its roof carried away and several windows blown in. The west side was badly damaged.

SUICIDE.

Cincinnati, Nov. 28.—About half-past 1 o'clock this morning at a bal masque at Robinson's Opera House, a variety actress giving her name as Ada Clifton, and her home as Columbus, O., attempted suicide by shooting herself in the region of the heart with a small pistol. She had been drinking freely and was so stupified as to be unable to give a correct account of herself. She was removed to a hospital, and the wound examined, but at present writeing, the location of the bullet is not ascertained.

CHOKED OFF.

Execution of a Murderer at Windsor, Vt.

Windsor, Vt., Nov. 28.—Asa Magoon, who murdered Rufus Stricker, at Barre, Vt., in October, 1875, was hanged in the state prison to-day, on the same gallows used for the hanging of seven other murderers.

Magoon, this morning, being asked for a confession, said he had none to make and that he hoped to meet his family in Heaven. He leaves seven children.

Magoon declared that he would not ascend the scaffold, but would have to be carried up by the sheriff. He made a long explanation of the crime, and said Mrs. Perrine was the guilty one.

ADDITIONAL CITY NEWS.

JACK'S JOY.

Swayne, the Alleged Murderer, Admitted to Bail.

His Security Fixed at the Sum of $5,000.

On last Wednesday application was made by the Colericks, counsel for Jack Swayne, for a writ of *habeas corpus* to have the prisoner admitted to bail. The application was made upon the evidence introduced in the trial, which trial, although null and void, yet the evidence is to all intents and purposes in. Judge Borden, after considering the matter said he would continue it until this morning at half past 10 o'clock, when, under the prosecution would bring before the court a witness who would say that he *saw* Jack Swayne stab John Sheehy, he would admit him to bail. Court met this morning pursuant to adjournment, when his honor asked the counsel *pro* and *con* whether they had any new witnesses to offer or anything to say why the prisoner should not be at once admitted, the answer being in the negative, the court decided to admit the prisoner to bail.

Arguments then began on fixing the amount. The defense opened by saying that $5,000 would be amply sufficient under the circumstances. The state wanted the bail fixed at $12,000. The court, after refering to several well adjudged cases of a simular character, fixed the bail at $5,000 and ordered the clerk to so make the entry, and should at once proceed to make up the record. In the meantime, the prisoner was remanded to jail until the record could be made and the bond produced, which will be some time to-day, and if after careful scrutiny, the bond is considered sufficient, he would order the prisoner to be released. Swayne has been in jail since July 5th.

"Do not issue license to Mr. Dumons and Miss Perraquay, they being cousins."

Mr. Dumons on reading the notice, at once asserted that there were more states than one, and expressed his firm determination to skip for Michigan instanter. They skupt.

An interesting case came up in the circuit court this morning in the shape of an appeal of David A. Robinson from the action of the board of county commissioners in employing W. J. Cunningham as an expert to place on the tax duplicate sequestered personal property and securities hitherto untaxed. The contract made by the commissioners with Cunningham authorizes the payment to him by the treasurer of 25 percent of all back taxes recovered by him. There has been no decision as yet.

CIRCULATION

Of The "Daily Sentinel."

The following is the circulation of the "Daily Sentinel" for the week ending November 22nd, 1879:

Monday, Nov. 17	4,416
Tuesday, Nov. 18	4,416
Wednesday, Nov. 19	4,488
Thursday, Nov. 20	4,416
Friday, Nov. 21	4,392
Saturday, Nov. 22	4,464
Total	26,592
Average for the week	4,432

Personally appeared before me, Robert A. Mears, a notary public in and for the county of Allen and state of Indiana, William R. Nelson, one of the publishers of the Fort Wayne "Daily Sentinel," who being duly sworn testified that the above is a true statement of the circulation of the "Sentinel" for the above dates.

ROBERT A. MEARS, Notary Public.

In speaking of the councilmen who opposed the purchase of the Holly engines, Mr. LILLIE'S name was unintentionally omitted. He is entitled to his full share of credit.

No reasonable man doubts that the canal feeder will, some day, be the source of water supply for the city. It is the *only* practicable source of supply and if not adopted now, will be eventually.

Mr. WILLIAMS tells us that he is a philanthropist, and we will not dispute him. There are some evil-minded and mistaken people, who have thought that his talents and energies have usually been directed to taking care of JESSE L. WILLIAMS. It is, it seems, all a mistake. His great concern is for his tax paying fellow citizens.

JESSE L. WILLIAMS, in a communication to the *Gazette* this morning, tells us that the citizens of Fort Wayne are indebted to him for the reduction in the rate of interest from 8 to 6 percent, and in the price of iron water pipe of $9 per ton. Can't Mr. WILLIAMS, now as winter is about setting in, secure for us a reduction in the price of coal?

Is Mr. WILLIAMS to be charged with the late advance in the price of cast iron water pipe? He tells us that we owe it to him that iron is now cheaper than at the time of making the BASS, SIMONS & Co., contract, and by a parity of reasoning he might be regarded as responsible for any advances that have taken place in the meantime. The SENTINEL, however, is satisfied with what Mr. WILLIAMS has accomplished in this direction and will not charge him with the late advance in iron.

THE *Gazette d'Italia*, printed at Rome, gives the following valuable information concerning American politics:

Our readers may remember that the election for president of the United States is accomplished by an indirect vote. All the electors vote for delegates, who in their turn choose the president. As we have recently said, the new president is to be elected in June of next year, and the agitation for the election of delegates has already become lively. Several public meetings for this purpose have been held in New York. The opposing parties are two—the republicans, who wish to maintain the present order of things, known popularly as the machine (*la macchina*) and the democrats, who desire to make broad and radical changes in this machine, which they believe to be too old and worn out.

POLITICAL.

Cincinnati is organizing to capture the next national democratic convention.

The New York *Tribune* prints an interview, on the political situation, with Richard Smith, of the Cincinnati *Gazette*.

R. M. Pulsifer, of the Boston *Herald*, has been nominated for mayor of Newton, Mass., by both democrats and republicans.

Quite a large mass of contradictory testimony has been taken in the Spofford-Kellogg investigation, in Louisiana, but there were no new developments of startling importance.

The Bangor (Me.) *Whig*, rep., asserts that it has positive information that the democratic managers have been substituting altered and amended election returns in violation of law and gives instances.

An important case, involving as its results the title to all the property upon which Leadville stands, was decided by Judge Hallet of the United States district court Friday. Wednesday morning about 5 o'clock a tramp, who gave his name as Jackson, forced an entrance into the hardware store of Ketcham & Barton, at Bourbon, and while standing behind the counter was shot in the head with a load of buckshot by Luther Barton, who was sleeping in the store. His injuries will not prove fatal. He was taken to Plymouth to await trial.

The town of Radalia, Fayette county, Ia., was burned down Wednesday. But one business structure remains. The postoffice is also burned. There was but little insurance upon any of the property. Ten men from DeKalb county, Ga., were taken before United States Commissioner Smith on the charge of kukluxing a man named McAlpine, his son and daughter. All three were terribly beaten, but it did not appear that it was done for any political or other reason in violation of the United States statutes, and the case was dismissed, but will probably go before the state courts. SPORTING NOTES.

The score in the Chicago bicycle race at midnight: English—Cann, 500, Stanton 562. Americans—Belard 606, G. Harrison 610, Rutland 566.

Poverty and Suffering.

"I was dragged down with debt, poverty and suffering for years, caused by a sick family and large bills for doctoring, which did them no good. I was completely discouraged, until one year ago, by the advice of my pastor, I procured Hop Bitters and commenced their use, and in one month we were all well, and none of us have seen a sick day since, and I want to say to all poor men, you can keep your families well a year with Hop Bitters for less than one doctor's visit will cost. I know it. A Workingman."

A PANIC.

Breaks Out in a St. Louis Public School Building.

Scenes of Terror and Confusion—Remarkable Escapes.

A St. Louis telegram of the 26th, says:

Between 10 and 11 o'clock this morning a fire was discovered in one of the rooms on the ground floor of the Webster school, corner Eleventh and Jefferson streets, the largest primary school building in the city. The school fire alarm was immediately struck and the teachers and scholars throughout the building apprised of the danger. The children on the ground floor got out safely and in good order, but those on the upper floor were seized with a panic, and despite the utmost exertions of the teachers, rushed wildly and shrieking in terror to the stairway, down which they hurried themselves in the greatest frenzy and confusion. The pressure was so great on the stairs between the second and ground floor that the banister gave way and several children were precipitated to the floor below.

Elias Link had an arm broken; Emma Dillon, badly hurt about the head and upper parts by the banister falling on her, and Emma Schaeffer seriously bruised. That a score of them were not killed outright is most marvelous, but these are all the casualties to the children now known. Mrs. Battazzar, a teacher, in her heroic efforts to stay the rushing tide at the head of the stairs, was hurled from her feet, trampled upon and borne to the bottom, where she was dragged out very much bruised, but not seriously hurt. The school was finally emptied and something like order restored, when it was discovered that the fire was only a trifling affair and soon mastered.

The panic was confined to the girls. The boys were all discharged from the different rooms without confusion or trouble. The terror of the girls seemed to have been greatly increased by the ringing of the large bell on top of the school house by some unknown person.

IRELAND.

The Situation Becoming More Critical—Demonstrations at Sligo—The Populace Aroused.

The news from Ireland continues exciting. At Sligo Wednesday night the police were stoned and had to clear the streets.

It is thought that the government intends to remove the trial of the prisoners to Dublin instead of taking them to the county assizes.

If there is no exhibition of defiance in Ireland, the political trials will not be proceeded with at once.

Daleys return to Castlebar, will be celebrated by bonfires and other demonstrations through the county of Mayo.

Mr. Parnell has left Sligo, but Davitt and Daley will remain until Killen is released. Parnell has received invitations from all parts of the country to address meetings, his propogandi has been actively carried on in Sligo during the trials, the speeches and other incendiary causes increasing the excitement in the town.

On Thursday night 35,000 persons paraded the streets, followed by twenty armed constables to prevent stone throwing and violence, which occurred on the previous night.

Davit is confident of an acquittal if tried at the coming assizes at Sligo, but declared that if his trial is removed to the court of queen's bench in Dublin, by certiorari, he will not expend a farthing in securing counsel and engaging witnesses, etc., as he is convinced that the crown is determined to inflict another year's imprisonment upon him.

John O'Connor Power, home ruler member of parliament for Mayo, will preside at the demonstration to be held at Hyde Park Sunday next. Among the speakers will be Justin McCarthy, Alex Martin Sullivan and William Archer Redmond, home ruler members of parliament.

Ropes and life-buoys were instantly thrown them, and they hauled themselves on board. The steamship State of Alabama passed a large quantity of wrecked stuff.

The whaling ship Helmar from the Arctic Ocean has arrived at San Francisco. She brings the officers and crew of the bark Mercury, abandoned in the ice October 26th, just north of herald shoals. They left the bark Vigilant in the same pack of ice, frozen, but the crew all in good health. Capt. Hicknott, of the Mercury, like other whalemen, fear the Jeannette may be frozen up in the pack of ice, in which case they have little hopes of the vessel ever getting out, though the crew may reach a place of safety. The Mercury had on board, when abandoned, 100 barrels of oil, 900 pounds of bone and 4,000 pounds of ivory. The vessel was owned by Bartlett & Son, of New Buford, and insured for about $40,000.

ONE WEEK IN WALL STREET.

October 7th, 1878, Western Union Telegraph stock sold at the New York Stock Exchange for 90.1-8 per share; October 14th, 1878, it sold at 88.3-4, a fluctuation of 9.3-8 percent in seven days; 12-500 shares sold on a margin of 1 percent required an actual capital of $12,500. The same stock delivered at 88.3-4 gave a profit of 9.3-8 percent on the stock, or $937.50 per 100 shares. On the whole 12,500 the actual profit was $117,187.50, or 9.3-8 times the capital used, in one week. This is a single case taken from the official record of the Stock Exchange, and shows how money is made so rapidly in stocks. Few people, however, have the necessary cash to put up in order to realize such immense profits as these, but capital in any amount from $10 to $50,000 can be used with equal success by the new combination system of operating in stocks which Messrs. Lawrence & Co., Bankers, New York, have established. By this method of pooling moneys, dividends in the various sums and operating them as one immense capital, shareholders realize large profits which are divided *pro rata* monthly. New circular containing two unerring rules for success, and full information, so that any one can operate profitably. Stocks and bonds wanted. Government bonds supplied. CIRCULATION

Of The "Daily Sentinel."

The following is the circulation of the "Daily Sentinel" for the week ending November 22nd, 1879:

Monday, Nov. 17	4,416
Tuesday, Nov. 18	4,416
Wednesday, Nov. 19	4,488
Thursday, Nov. 20	4,416
Friday, Nov. 21	4,392
Saturday, Nov. 22	4,464
Total	26,592
Average for the week	4,432

Personally appeared before me, Robert A. Mears, a notary public in and for the county of Allen and state of Indiana, William R. Nelson, one of the publishers of the Fort Wayne "Daily Sentinel," who being duly sworn testified that the above is a true statement of the circulation of the "Sentinel" for the above dates.

ROBERT A. MEARS, Notary Public.

IN speaking of the councilmen who opposed the purchase of the Holly engines, Mr. LILLIE's name was unintentionally omitted. He is entitled to his full share of credit.

No reasonable man doubts that the canal feeder will, some day, be the source of water supply for the city. It is the *only* practicable source of supply and if not adopted now, will be eventually.

MR. WILLIAMS tells us that he is a philanthropist, and we will not dispute him. There are some evil-minded and mistaken people, who have thought that his talents and energies have usually been directed to taking care of JESSE L. WILLIAMS. It is, it seems, all a mistake. His great concern is for his tax paying fellow citizens.

JESSE L. WILLIAMS, in a communication to the *Gazette* this morning, tells us that the citizens of Fort Wayne are indebted to him for the reduction in the rate of interest from 8 to 6 percent, and in the price of iron water pipe of $9 per ton. Can't Mr. WILLIAMS, now as winter is about setting in, secure for us a reduction in the price of coal?

Is Mr. WILLIAMS to be charged with the late advance in the price of cast iron water pipe? He tells us that we owe it to him that iron is now cheaper than at the time of making the BASS, SIMONS & Co., contract, and by a parity of reasoning he might be regarded as responsible for any advances that have taken place in the meantime. The SENTINEL, however, is satisfied with what Mr. WILLIAMS has accomplished in this direction and will not charge him with the late advance in iron.

THE *Gazette d'Italia*, printed at Rome, gives the following valuable information concerning American politics:

Our readers may remember that the election for president of the United States is accomplished by an indirect vote. All the electors vote for delegates, who in their turn choose the president. As we have recently said, the new president is to be elected in June of next year, and the agitation for the election of delegates has already become lively. Several public meetings for this purpose have been held in New York. The opposing parties are two—the republicans, who wish to maintain the present order of things, known popularly as the machine (*la macchina*) and the democrats, who desire to make broad and radical changes in this machine, which they believe to be too old and worn out.

POLITICAL.

Cincinnati is organizing to capture the next national democratic convention.

The New York *Tribune* prints an interview, on the political situation, with Richard Smith, of the Cincinnati *Gazette*.

R. M. Pulsifer, of the Boston *Herald*, has been nominated for mayor of Newton, Mass., by both democrats and republicans.

Quite a large mass of contradictory testimony has been taken in the Spofford-Kellogg investigation, in Louisiana, but there were no new developments of startling importance.

The Bangor (Me.) *Whig*, rep., asserts that it has positive information that the democratic managers have been substituting altered and amended election returns in violation of law and gives instances.

An important case, involving sn its results the title to all the property upon which Leadville stands, was decided by Judge Hallet of the United States district court Friday. The title to the land upon which the town stands, with its suburbs, has been derived through patents frem the United States government for placer mining. The court decided the patent void.

Judge Woods, of the United States circuit court, rendered a decision in the case of Eugene Kelly, of New York, vs. the mayor and aldermen of the city of Savannah, to recover money due on bonds and coupons of the Savannah, Albany and Gulf Railroad guaranteed by the city, and directed the jury to return a verdict for the plaintiff. The amount involved is $300,000 bonds, and $60,000 interest. Notice was given of an appeal to the supreme court.

Wednesday morning about 5 o'clock a tramp, who gave his name as Jackson, forced an entrance into the hardware store of Ketcham & Barton, at Bourbon, and while standing behind the counter was shot in the head with a load of buckshot by Luther Barton, who was sleeping in the store. His injuries will not prove fatal. He was taken to Plymouth to await trial.

A large and enthusiastic meeting was held at Wooster, O., Wednesday night in behalf of the Baltimore, Pittsburgh and Chicago Railroad, which asks $150,000 from Wayne county.

At Kenton, Clifton Bain shot Otto Johns and killed him. They were boys about twelve years old and were playing with an old revolver when Johns ran in front of the pistol just in time to receive the bullet.

Willie Jones and George Winsey, both of Covington, Ky., and aged about fourteen years respectively, quarreled, Thursday, and Jones inflicted what is supposed to be a fatal stab in Winsey's back.

Matthew Lewis, colored was found guilty Wednesday, in the criminal court at St. Louis, of murdering his wife, October 13th, 1876. This is the third trial Lewis has had and his counsel will move for another.

On Wednesday night forty-two gold watches and fifty-two pairs of gold bracelets, valued at $3,000, were taken from the safe of Mr. Terlin, a Covington (Ky.) jeweler, while he was engaged in conversation with a confederate of the thieves. No clue.

Irregularities are reported at the custom house at Toronto. An examination of the books is said to show the cash short $20,000, which is said to have been spent in land speculations. Collector James E. Smith and cashier Wm. McKey are implicated.

Nine prisoners escaped from the Murfreesboro, Tenn., jail Wednesday night. Among them were West Smithy, charged with murder in the first degree, and Hickslaughter, already sentenced to forty-one years' imprisonment, and Wm. Adkins, charged with horse stealing, and Tom Charlton, charged with forgery.

A great number of petroleum barrels exploded in a room of the New York electrotype foundry, at Philadelphia, at noon Thursday, doing considerable damage to the building and probably fatally burning Edmund O'Keifer and Wm. Gray. Children in a school house near were saved from a panic by the prompt action of the teachers.

The town of Radalia, Fayette county, Ia., was burned down Wednesday. But one business structure remains. The postoffice is also burned. There was but little insurance upon any of the property. Many will be financially ruined. The fire broke out in a saloon which is believed to have been set on fire by a rival saloon keeper in the upper section of the town, and indignation runs high.

Ten men from DeKalb county, Ga., were taken before United States Commissioner Smith on the charge of kukluxing a man named McAlpine, his son and daughter. All three were terribly beaten, but it did not appear that it was done for any political or other reason in violation of the United States statutes, and the case was dismissed, but will probably go before the state courts. It is claimed that the girl was intimate with a negro.

SPORTING NOTES.

The score in the Chicago bicycle race at midnight: English—Cann, 590, Stanton 562. Americans—Belard 606, G. Harrison 610, Rutland 566.

Poverty and Suffering.

"I was dragged down with debt, poverty and suffering for years, caused by a sick family and large bills for doctoring, which did them no good. I was completely discouraged, until one year ago, by the advice of my pastor, I procured Hop Bitters and commenced their use, and in one month we were all well, and none of us have seen a sick day since, and I want to say to all poor men, you can keep your families well a year with Hop Bitters for less than one doctor's visit will cost, I know it. A Workingman."

A PANIC.

Breaks Out in a St. Louis Public School Building.

Scenes of Terror and Confusion---Remarkable Escapes.

A St. Louis telegram of the 26th, says:

Between 10 and 11 o'clock this morning a fire was discovered in one of the rooms on the ground floor of the Webster school, corner Eleventh and Jefferson streets, the largest primary school building in the city. The school fire alarm was immediately struck and the teachers and scholars throughout the building apprised of the danger. The children on the ground floor got out safely and in good order, but those on the upper floor were seized with a panic, and despite the utmost exertions of the teachers, rushed wildly and shrieking in terror to the stairway, down which they hurried themselves in the greatest frenzy and confusion. The pressure was so geat on the stairs between the second and ground floor that the banister gave way and several children were precipitated to the floor below.

Elias Link had an arm broken; Emma Dillon, badly hurt about the head and upper parts by the banister falling on her, and Emma Schaeffer seriously bruised. That a score of them were not killed outright is most marvelous, but these are all the casualties to the children now known. Mrs. Battazzar, a teacher, in her heroic efforts to stay the rushing tide at the head of the stairs, was hurled from her feet, trampled upon and borne to the bottom, where she was dragged out very much bruised, but not seriously hurt. The school was finally emptied and something like order restored, when it was discovered that the fire was only a trifling affair and soon mastered.

The panic was confined to the girls. The boys were all discharged from the different rooms without confusion or trouble. The terror of the girls seemed to have been greatly increased by the ringing of the large bell on top of the school house by some unknown person.

IRELAND.

The Situation Becoming More Critical—Demonstrations at Sligo—The Populace Aroused.

The news from Ireland continues exciting. At Sligo Wednesday night the police were stoned and had to clear the streets.

It is thought that the government intends to remove the trial of the prisoners to Dublin instead of taking them to the county assizes.

If there is no exhibition of defiance in Ireland, the political trials will not be proceeded with at once.

Daleys return to Castlebar, will be celebrated by bonfires and other demonstrations through the county of Mayo.

Mr. Parnell has left Sligo, but Davitt and Daley will remain untill Killen is released. Parnell has received invitations from all parts of the country to address meetings, his propogandi has been actively carried on in Sligo during the trials, the speeches and other incendiary causes increasing the excitement in the town.

On Thursday night 35,000 persons paraded the streets, followed by twenty armed constables to prevent stone throwing and violence, which occurred on the previous night.

Davit is confident of an acquittal if tried at the coming assizes at Sligo, but declared that if his trial is removed to the court of queen's bench in Dublin, by certiorari, he will not expend a farthing in securing counsel and engaging witnesses, etc., as he is convinced that the crown is determined to inflict another year's imprisonment upon him.

John O'Connor Power, home ruler member of parliament for Mayo, will preside at the demonstration to be held at Hyde Park Sunday next. Among the speakers will be Justin McCarthy, Alex Martin Sullivan and William Archer Redmond, home ruler members of parliament.

The steamship Circassia arrived at New York Thursday from Glasgow via Halifax, into which port the Circassia towed the disabled steamship City of Richmond. The Circassia brought a great part of the City of Richmond's passengers.

The steamship State of Alabama has arrived at Philadelphia with the crew of the ship Iva, from Boston for Antwerp. The crew were much exhausted from exposure and want of food. One of the crew was washed overboard a few hours before the State of Alabama hove in sight. While taking in the life-boat of the steamer it was smashed to pieces, throwing three officers and two seamen into the water. Ropes and life-buoys were instantly thrown them, and they hauled themselves on board. The steamship State of Alabama passed a large quantity of wrecked stuff.

The whaling ship Helmar from the Arctic Ocean has arrived at San Francisco. She brings the officers and crew of the bark Mercury, abandoned in the ice October 26th, just north of herald shoals. They left the bark Vigilant in the same pack of ice, frozen, but the crew all in good health. Capt. Hicknott, of the Mercury, like other whalemen, fear the Jeannette may be frozen up in the pack of ice, in which case they have little hopes of the vessel ever getting out, though the crew may reach a place of safety. The Mercury had on board, when abandoned, 100 barrels of oil, 900 pounds of bone and 4,000 pounds of ivory. The vessel was owned by Bartlett & Son, of New Beford, and insured for about $40,000.

A Great Discovery by a Great Man.

This, primarily, is what Warner's Safe Nervine is. The great man is one of the most famous living physicians. He found a harmless remedy for all kinds of pain, others improved it, and the final result is the Safe Nervine now manufactured only by H. H. Warner & Co. 4½

ONE WEEK IN WALL STREET.

October 7th, 1878, Western Union Telegraph stock sold at the New York Stock Exchange for 96.1-8 per share; October 14th, 1878, it sold at 86.3-4, a fluctuation of 9.3-8 percent in seven days; 12-500 shares sold on a margin of 1 percent required an actual capital of $12,500. The same stock delivered at 86.3-4 gave a profit of 9.3-8 percent on the stock, or $937.50 per 100 shares. On the whole 12,500 the actual profit was $117,187.50, or 9.3-8 times the capital used, in one week. This is a single case taken from the official record of the Stock Exchange, and shows how money is made so rapidly in stocks. Few people, however, have the necessary cash to put up in order to realize such immense profits as these, but capital in any amount from $10 to $50,000 can be used with equal success by the new combination system of operating in stocks which Messrs. Lawrence & Co., Bankers, New York, have established. By this method of pooling thousands of orders in various sums and operating them as one immense capital, shareholders realize large profits which are divided *pro rata* monthly. New circular contains two unerring rules for success, and full information, so that any one can operate profitably. Stocks and bonds wanted. Government bonds supplied. THE CITY.

Any quantity of rain.

Tony Walker's infant son died Wednesday and was buried yesterday.

Fred Boltz, of the Occidental, is happy in the possession of the finest stoves in the city.

The *Gazette* scooped the evening papers Wednesday on the arrival of Schaffer, the great billiardist.

The hotels and more especially the Globe were badly left yesterday. Too many lunch routes was the trouble.

Mrs. Frank Iten, of Tiffin, O., died at Canton last Wednesday, where she had been on a visit. She was a sister-in-law of John Iten of this city.

An anonymous correspondent tells the SENTINEL, by postal card, that "Broadway wants K. J. Bauer for the next councilman from the fifth ward."

In answer to a correspondent the SENTINEL will say that it has no knowledge of the present whereabouts of Dr. Von Moschsisker, but believes him to be in Philadelphia.

A fatal accident to a "dawg" occurred at the Fairfield avenue crossing whereby a dog was run right over and instantly killed, receiving mortal injuries from which he died immediately and was killed so dead that there is no hope for his recovery.

Judge Pratt is so proud that he can't stand straight, all on account of a magnificent bull pup donated him by Fred Boltz, he is a full bred English bull dog and has all the fine points of a regular hanger on. He has a black stripe down his back and is made of China.

There will be another encampment of the I. O. O. F. instituted in this city to-night by Grand Patriarch J. F. Wallack, of Evansville. The grand high priest, of Muncie, will also be present to assist in the work. The order will be known as the Fort Wayne Encampment.

Chas. E. Graves, agent of the Empire Line in this city, says that freights are holding up remarkably well since the recent advance in rates. Everybody seemed to think that there would be a general stagnation of shipping trade, until the rates were reduced, which has not been the case, on the contrary their line is shipping from six to ten cars daily from this point.

As soon as the ice forms on the canal to the thickness of about an inch, a number of boys at once begin testing its strength by throwing stones, sticks, etc, upon it. There is no malicious intent, but sometimes it does serious injury nevertheless. These stones become imbeded in the ice, and when the ice men begin cutting in the winter, their plows strike these stones and are not unfrequently entirely ruined. The canal owners have signified their intention of prosecuting all boys caught in the act of throwing stones on the ice, so they had better desist.

Order of Chosen Friends.

A council of the above order was instituted in this city on Wednesday evening, by Alfred Terry, of Detroit, Mich., with thirty charter members and the following officers:

Past chief counsellor—John H. Bass.

Chief counsellor—Dr. D. D. Weisel.

Vice counsellor—Henry P. Vordermark.

Recorder—Charles W. Strawbridge.

Financier—Lewis P. Vordermark, Treasurer—Capt. James Harper.

Medical examiner—Dr. James S. Gregg.

Warden—E. T. Davis.

Prelate—Frank Alderman.

Guard—Jno. F. Curtice.

Sentry—Chas. Read.

Trustees—Robert J. Fisher, G. R. McCracken, John I. White.

The council will be known as Jno. H. Bass council, in honor of our esteemed citizen of that name.

The order originated in Indianapolis, and is similar to the Royal Arcanum, the principal feature being an insurance of $3,000.

Who Killed John Sheehy?

To the Editor of the SENTINEL:

Allow me space in your valuable paper to ask: "Can it be the public wish to see Jack Swayne acquitted whether he is guilty of that cowardly murder or not? Is not Jack Swayne implicated in this matter in some way, or why is he now languishing in the county jail? If Jack Swayne committed that crime, he should suffer what he made that young man suffer, or has it come so that one young man can plunge a knife into another and then be let go to try it again? Is that law? John Sheehy left his home full of life and vigor on the morning of the fourth of July to go to the fair grounds, and wandering around he was drawn by the music and dancing, which was a disgrace to Fort Wayne, and where many more of our fellow citizens' sons were indulging in the sports of the day. But John Sheehy, a young man, who was never known to associate with such, was the victim of the grand celebration. And is there no sympathy for any but Jack Swayne? Look into the home of John Sheehy, and see the broken-hearted mother whose son was murdered in cold blood. What are her feelings? What sympathy does she meet? Let Jack Swayne be tried with all truthful evidence, and if he is innocent for heaven'ssake let him out of jail.

And who killed John Sheehy?

MILLER'S MYSTERY.

He Doesn't Know Whether it was a Meteor or a Highwayman.

But He is Positively Certain He is Out Just $29.

A very bold robbery was committed on the streets on Wednesday evening at about 6 o'clock. John Miller of Huntertown was the victim, and was the victim about $29 worth. He was walking along not thinking of Prof. Tice nor any body in particular, when suddenly he saw a shower of meteors shoot across the sky which is only surpassed every hundred years. The sight was too much for John who immediately lay down and the fellow or fellows went through his pockets and reaped a harvest of $29, but magnanimously left John $1.25 in change in order that he might have something to be thankful for on Thanksgiving day. The garroling took place right in front of Dr. Myers's residence on West Wayne street.

Mr. Miller was rendered senseless by the blow, and does not know how long he lay on the sidewalk, but thinks not very long. When he recovered he came down town and went to Dr. Gregg and displayed a very bad looking eye, with a cut on the brow about an inch or more in length which the doctor was obliged to stitch. Mr. Miller has no idea what it was that struck him, nor whether it was one man or a regiment. The first intimation he had of any trouble was when the fireworks began, and the next sensation was an aching lump on his forehead and an aching void in his breeches pocket.

MAY FISK.

She Claims It Was Not Her Troupe that "Busted" at Fort Wayne.

May Fisk is woefully indignant at the report in the *Mirror*, saying that her company went broke at Fort Wayne. In a letter she says:

To the Editor of the Mirror:

Theatre Comique, Detroit, Nov. 17.—Dear Sir: Your correspondent from Cincinnati does me a gross injustice by reporting my company broke up in Fort Wayne, Ind., owing to my being "soaked in liquor." I have not played a company in Fort Wayne this season. My time is altogether too valuable to be passed in dissipation, as I am managing a company composed of the best specialists in the profession.

Two parties appropriated my name and have both "come to grief." I would notify managers of opera houses and artists in the profession that I am not responsible for contracts made by such parties. All letters and contracts, to be valid, must be written and signed by myself, as I employ no one to transact my business.

As the rumors have had a tendency to injure me in the estimation of strangers, would you kindly publish this? My route from here is Buffalo, Rochester, Philadelphia, Bradford and Pittsburg.

My combination consists of ladies and gentlemen, and not of wine-room talent or tramps. Respectfully,

MAY FISK.

The report was furnished by A. Lauferty who is the regular correspondent of the *Mirror* from this place, and was a correct statement of the facts.

What They Say.

Rev. J. E. Rankin, D. C., of Washington, D. C., certifies of Warner's Safe Kidney and Liver Cure: "I do not doubt that it has great virtue." Rev. C. A. Harvey, D. D., Secretary of Howard University, certifies that for Bright's disease "no other remedy can be held for one moment in comparison with this." E. Neff, of Detroit, Mich., certifies that it completely cured him of a very serious chronic liver complaint. J. H. Sherlock, of Rochester, N. Y., certifies that it cured him of Bright's disease of several years' standing, and that he believes it to be the most valuable remedy ever discovered. These are samples of hundreds of other testimonials. 4

THE 44TH INDIANA.

A History of the Regiment by a Lagrange Man.

The surviving members of the 44th regiment Indiana volunteers, will be pleased to learn that John H. Rauick, of Lagrange, has undertaken to comply with the request of a resolution passed at a reunion of the regiment at Auburn last October and prepare and furnish a history of that regiment to contain a review of its entire record, all its marches, battles, encampments, etc., also the personal record of each of its members. He has at his command the official records and his private letters written every few days during the war, covering the entire service of the regiment. He went into camp with the first volunteers of the regiment and remained with the command until the day of its discharge.

Mr. Rauick desires the surviving members of the 44th to send him their addresses, together with any information they have bearing upon the history of the regiment. He expects to have the history ready for delivery at the reunion of the regiment to be held at Kendallville, next April.

Tossing Upon a Bed of Agony,

Tortured in every joint with inflammatory rheumatism, is a prospect which may become a melancholy fact if the twinges of the dread disorder are not checked at the outset. Persons of a rheumatic tendency find Hostetter's Stomach Bitters a useful remedy, nor do they encounter the risk in using it they do from resorting to that active poison Colchicum, which is often employed to arrest the malady. The use of the Bitters is equally as effective in its results, and is attended with no risk. There is ample testimony to prove that the medicine possesses blood depurating qualities of no common order, besides these of a tonic and general alterative. It stimulates the action of the kidneys and promotes the removal from the system of impurities which develop disease, and are fraught with serious danger. Fever and ague, dyspepsia, debility, nervousness, constipation, etc., are remedied by it.

FEELS YOUNG AGAIN.

"My mother was afflicted a long time with Neuralgia and a dull, heavy, lifeless condition of the whole system; headache, nervous prostration, and was almost helpless. No physicians or medicines did her any good. Three months ago she began to use Hop Bitters, with such good effect that she seems And feels young again, although over 70 years old. We think there is no other medicine fit to use in the family."—A lady, in Providence, R. I.

LANDS! LANDS!

KANSAS TO THE FRONT!

The Leading Wheat State in the Union in 1878, and the Fourth Corn State—The Great Kansas Harvest in 1878 was Solid for the "Golden Belt."

The celebrated Grain Belt so country, in the limestone section of Central Kansas, traversed by the Kansas Pacific.

The following statement are taken from the report of the Kansas state board of agriculture for 1878:

WHEAT! Kansas rises from the Eleventh Wheat State in 1877 to the First Wheat State in the Union in 1878, producing 28,516,953 bushels winter wheat, and 5,796,403 bushels spring wheat; total,

32,315,361

Bushels Wheat, with only one-eighth of the state under cultivation. The unorganized counties lying in the Golden Wheat Belt of the Kansas Pacific produced 12,333,324 bushels, or over 41 percent, and, including unreporting counties, fully 14,000,000 bushels, or 45 percent of the entire yield of wheat in the state, averaging 24 bushels to the acre, while the average for the state was 17 bushels per acre.

CORN! Kansas, the Fourth Corn State in the Union, in 1878, produced 103,324,971 bushels of Corn. Of which the Golden Grain Belt counties produced 27,399,055 bushels, or 31 percent, nearly one-third of the entire yield of the state, with an equally grand showing in all other departments of agriculture.

The foregoing facts show conclusively why

29 percent of the increase in population in the state during the *past four years*; and

40 percent of the increase in the population during the *past year*; and

43 percent of the increased acreage of wheat in the state in 1878, belonged to the "Golden Belt."

A Farm for Everybody.—65,000 farms—5,000,000 acres—for sale by the Kansas Pacific—the best land in America, at from $2 to $5 per acre, one-quarter off for cash, or on 6 to 11 years credit at 7 percent interest. It don't take much money to buy a farm on the Kansas Pacific; $28 to $80 will secure 80 acres on credit, or $120 to $350 in cash will buy it outright.

Send to S. J. Gilmore, Land Commissioner, Salina, Kas., for the "Kansas Pacific Homestead," a publication which tells all about the country, or call on ISAAC D'ISAY, northwest corner Calhoun and Berry streets, Fort Wayne. It is mailed free to all applicants.

Read all you can gather about Kansas, and when you decide to start, beware and start right by locating along the KANSAS PACIFIC RAILWAY.

THE CITY.

Any quantity of rain.

Tony Walker's infant son died Wednesday and was buried yesterday.

Fred Boltz, of the Occidental, is happy in the possession of the finest stoves in the city.

The *Gazette* scooped the evening papers Wednesday on the arrival of Schaffer, the great billiardist.

The hotels and more especially the Globe were badly left yesterday. Too many lunch routes was the trouble.

Mrs. Frank Iten, of Tiffin, O., died at Canton last Wednesday, where she had been on a visit. She was a sister-in-law of John Iten of this city.

An anonymous correspondent tells the SENTINEL, by postal card, that "Broadway wants K. J. Bauer for the next councilman from the fifth ward."

In answer to a correspondent the SENTINEL will say that it has no knowledge of the present whereabouts of Dr. Von Moschsisker, but believes him to be in Philadelphia.

A fatal accident to a "dawg" occurred at the Fairfield avenue crossing whereby a dog was run right over and instantly killed, receiving mortal injuries from which he died immediately and was killed so dead that there is no hope for his recovery.

Judge Pratt is so proud that he can't stand straight, all on account of a magnificent bull pup donated him by Fred Boltz, he is a full bred English bull dog and has all the fine points of a regular hanger on. He has a black stripe down his back and is made of China.

There will be another encampment of the I. O. O. F. instituted in this city to-night by Grand Patriarch J. F. Wallack, of Evansville. The grand high priest, of Muncie, will also be present to assist in the work. The order will be known as the Fort Wayne Encampment.

Chas. E. Graves, agent of the Empire Line in this city, says that freights are holding up remarkably well since the recent advance in rates. Everybody seemed to think that there would be a general stagnation of shipping trade, until the rates were reduced, which has not been the case, on the contrary their line is shipping from six to ten cars daily from this point.

As soon as the ice forms on the canal to the thickness of about an inch, a number of boys at once begin testing its strength by throwing stones, sticks, etc, upon it. There is no malicious intent, but sometimes it does serious injury nevertheless. These stones become imbeded in the ice, and when the ice men begin cutting in the winter, their plows strike these stones and are not unfrequently entirely ruined. The canal owners have signified their intention of prosecuting all boys caught in the act of throwing stones on the ice, so they had better desist.

Order of Chosen Friends.

A council of the above order was instituted in this city on Wednesday evening, by Alfred Terry, of Detroit, Mich., with thirty charter members and the following officers:

Past chief counsellor—John H. Bass.

Chief counsellor—Dr. D. D. Weisel.

Vice counsellor—Henry P. Vordermark.

Recorder — Charles W. Strawbridge.

Financier—Lewis P. Vordermark.

Treasurer—Capt. James Harper.

Medical examiner—Dr. James S. Gregg.

Warden—E. T. Davis.

Prelate—Frank Alderman.

Guard—Jno. F. Curtice.

Sentry—Chas. Read.

Trustees—Robert J. Fisher, G. R. McCracken, John I. White.

The council will be known as Jno. H. Bass council, in honor of our esteemed citizen of that name.

The order originated in Indianapolis, and is similar to the Royal Arcanum, the principal feature being an insurance of $3,000.

Who Killed John Sheehy?

To the Editor of the SENTINEL:

Allow me space in your valuable paper to ask: "Can it be the public wish to see Jack Swayne acquitted whether he is guilty of that cowardly murder or not? Is not Jack Swayne implicated in this matter in some way, or why is he now languishing in the county jail? If Jack Swayne committed that crime, he should suffer what he made that young man suffer, or has it come so that one young man can plunge a knife into another and then be let go to try it again? Is that law? John Sheehy left his home full of life and vigor on the morning of the fourth of July to go to the fair grounds, and wandering around he was drawn by the music and dancing, which was a disgrace to Fort Wayne, and where many more of our fellow citizens' sons were indulging in the sports of the day. But John Sheehy, a young man, who was never known to associate with such, was the victim of the grand celebration. And is there no sympathy for any but Jack Swayne? Look into the home of John Sheehy, and see the broken-hearted mother whose son was murdered in cold blood. What are her feelings? What sympathy does she meet? Let Jack Swayne be tried with all truthful evidence, and if he is innocent for heaven'ssake let him out of jail.

And who killed John Sheehy?

MILLER'S MYSTERY.

He Doesn't Know Whether it was a Meteor or a Highwayman.

But He is Positively Certain He is Out Just $29.

A very bold robbery was committed on the streets on Wednesday evening at about 6 o'clock. John Miller of Huntertown was the victim, and was the victim about $29 worth. He was walking along not thinking of Pref. Tice nor any body in particular, when suddenly he saw a shower of meteors shoot across the sky which is only surpassed every hundred years. The sight was too much for John who immediately lay down and the fellow or fellows went through his pockets and reaped a harvest of $29, but magnaninously left John $1.25 in change in order that he might have something to be thankful for on Thanksgiving day. The garroting took place right in front of Dr. Myers's residence on West Wayne street.

Mr. Miller was rendered senseless by the blow, and does not know how long he lay on the sidewalk, but thinks not very long. When he recovered he came down town and went to Dr. Gregg and displayed a very bad looking eye, with a cut on the brow about an inch or more in length which the doctor was obliged to stitch. Mr. Miller has no idea what it was that struck him, nor whether it was one man or a regiment. The first intimation he had of any trouble was when the fireworks began, and the next sensation was an aching lump on his forehead and an aching void in his breeches pocket.

MAY FISK.

She Claims It Was Not Her Troupe that "Busted" at Fort Wayne.

May Fisk is woefully indignant at the report in the *Mirror*, saying that her company went broke at Fort Wayne. In a letter she says:

To the Editor of the Mirror:

Theatre Comique, Detroit, Nov. 17.—Dear Sir: Your correspondent from Cincinnati does me a gross injustice by reporting my company broke up in Fort Wayne, Ind., owing to my being "soaked in liquor." I have not played a company in Fort Wayne this season. My time is altogether too valuable to be passed in dissipation, as I am managing a company composed of the best specialists in the profession.

Two parties appropriated my name and have both "come to grief." I would notify managers of opera houses and artists in the profession that I am not aesponsible for contracts made by such parties. All letters and contracts, to be valid, must be written and signed by myself, as I employ no one to tranact my business.

As the rumors have had a tendency to injure me in the estimation of strangers, would you kindly publish this? My route from here is Buffalo, Rochester, Philadelphia, Bradford and Pittsburg.

My combination consists of ladies and gentlemen, and not of wine-room talent or tramps. Respectfully,

MAY FISK

The report was furnished by A. Lauferty who is the regular correspondent of the *Mirror* from this place, and was a correct statement of the facts.

What They Say.

Rev. J. E. Rankin, D. C., of Washington, D. C., certifies of Warner's Safe Kidney and Liver Cure: "I do not doubt that it has great virtue." Rev. C. A. Harvey, D. D., Secretary of Howard University, certifies that for Bright's disease "no other remedy can be held for one moment in comparison with this." E. W. Neff, of Detroit, Mich., certifies that it completely cured him of a very serious chronic liver complaint. J. H. Sherlock, of Rochester, N. Y., certifies that it cured him of Bright's disease of several years' standing, and that he believes it to be the most valuable remedy ever discovered. These are samples of hundreds of other testimonials. 4

THE 44TH INDIANA.

A History of the Regiment by a Lagrange Man.

The surviving members of the 44th regiment Indiana volunteers, will be pleased to learn that John H. Ruick, of Lagrange, has undertaken to comply with the request of a resolution passed at a reunion of the regiment at Auburn last October and prepare and furnish a history of that regiment to contain a review of its entire record, all its marches, battles, encampments, etc., also the personal record of each of its members. He has at his command the official records and his private letters written every few days during the war, covering the entire service of the regiment. He went into camp with the first volunteers of the regiment and remained with the command until the day of its discharge.

Mr. Ruick desires the surviving members of the 44th to send him their addresses, together with any information they have bearing upon the history of the regiment. He expects to have the history ready for delivery at the reunion of the regiment to be held at Kendallville, next April.

Tossing Upon a Bed of Agony,

Tortured in every joint with inflamatory rheumatism, is a prospect which may become a melancholy fact if the twinges of the dread disorder are not checked at the outset. Persons of a rheumatic tendency find Hostetter's Stomach Bitters a useful remedy, nor do they encounter the risk in using it they do from resorting to that active poison Colchicum, which is often employed to arrest the malady. The use of the Bitters is equally as effective in its results, and is attended with no risk. There is ample testimony to prove that the medicine possesses blood depurating qualities of no common order, besides those of a tonic and general alterative. It stimulates the action of the kidneys and promotes the removal from the system of impurities which develop disease, and are fraught with serious danger. Fever and ague, dyspepsia, debility, nervousness, constipation, etc., are remedied by it.

FEELS YOUNG AGAIN.

"My mother was afflicted a long time with Neuralgia and a dull, heavy, inactive condition of the whole system; headache, nervous prostration, and was almost helpless. No physicians or medicines did her any good. Three months ago she began to use Hop Bitters, with such good effect that she seems and feels young again, although over 70 years old. We think there is no other medicine fit to use in the family."—A lady, in Providence, R. I.

KANSAS PACIFIC RAIL'Y

LANDS! LANDS!

KANSAS TO THE FRONT!

The Leading Wheat State in the Union in 1878, and the Fourth Corn State—The Great Kansas Harvest in 1878 was Solid for the "Golden Belt."

The celebrated Grain Belt fo country, in the limestone section of Central Kansas, traversed by the Kansas Pacific.

The following statement are taken from the report of the Kansas state board of agriculture for 1878:

WHEAT! Wheat State in 1877 to the First Wheat State in the Union in 1878, producing 26,518,958 bushels winter wheat, and 5,796,403 bushels spring wheat; total,

32,315,361

Bushels Wheat, with only one-eighth of the state under cultivation. The organized counties lying in the Golden Wheat Belt of the Kansas Pacific produced 13,335,324 bushels, or over 41 percent, and, including unreporting counties, fully 14,000,000 bushels, or 45 percent of the entire yield of wheat in the state, averaging 24 bushels to the acre, while the average for the state was 17 bushels per acre.

CORN! Kansas, the Fourth Corn State in the Uninon, in 1878, produced 89,324,971 bushels of Corn. Of which the Golden Grain Belt counties produced 27,399,055 bushels, or 31 percent, nearly one-third of the entire yield of the state, with an equally grand showing in all other departments of agriculture.

The foregoing facts show conclusively why

29 percent of the increase in population in the state during the *past four years;* and 40 percent of the increase in the population during the *past year;* and 43 percent of the increased acreage of wheat in the state in 1878, belonged to the "Golden Belt."

A Farm for Everybody.—65,000, farms—5,000,000 acres - for sale by the Kansas Pacific—the best land in America, at from $2 to $6 per acre, one-quarter off for cash, or on 6 or 11 years credit at 7 percent interest. It don't take much money to buy a farm on the Kansas Pacific; $26 to $80 will secure 80 acres on credit, or $120 to $360 in cash will buy it outright.

Send to S. J. Gilmore, Land Commissioner, Salina, Kas., for the "Kansas Pacific Homestead," a publication which tells all about the country, or call on ISAAC D'ISAY, northwest corner Calhoun and Berry streets, Fort Wayne. It is mailed free to all applicants.

Read all you can gather about Kansas, and when you decide to start, besure and start right by locating along the KANSAS PACIFIC RAILWAY.

FEED AND FROLIC.

Ball and Banquet By the Harmony Lodge I. O. O. F.

Address By Hon. R. C. Bell--Literary and Musical Exercises.

A Feast of Reason and a Flow of Soul.

The event of the season was decidedly the grand reception and ball given by Harmony Lodge No. 19, I. O. O. F., at their hall in Harmony block last night.

The lodge room was decorated in a most beautiful manner, under the management of F. Fliegner. Festoons of evergreens from each corner of the room to the chandelier and festoons around the sides with wreaths on the walls encircling various pictures and "Welcome" in large evergreen letters on the wall at the head of the room combined to make the scene a beautiful one to look at, while more tempting still on the north side of the hall running the full length was a table bountifully laden with the choicest delicacies, while the table itself was most beautifully decorated with flowers and greens, and the three links emblematic of the greatest virtues friendship, love and truth, were neatly worked in evergreens upon the center of the cloths.

The general committee on arrangements was James Liggett, F. L. Racine, Charles Comparet, Louis Vordermark and Joseph Hanson, while the ladies' committee consisted of Mrs. C. Grafmiller, Mrs. Dr. Loag and Mrs. George Wells, to whose faithful endeavors a large share of the enjoyment of the evening was due. Long before the time appointed for the exercises to begin, the hall was comfortably filled.

The exercises were opened at 8:15, by an appropriate prayer by the Rev. A. Marine, after which the male Quartette rendered a beautiful song entitled "Days slowly declining."

Prof. Shultz then favored the audience with an admirably rendered violin solo and received the applause which always follows any of his efforts.

Hon. R. C. Bell was then introduced and delivered the address of the evening. He said that it was not expected of him, nor would it be proper for him to detain them long, nor deliver a windy oration, but he intended giving merely a little talk. He said it gave him great pleasure to meet with the order and its friends, but he did not desire to offer any panegyric nor yet any eulogium on the order as it needs none. "By their fruits ye shall know them," then judge it by its fruits they are constantly before you. The order is of comparatively recent origin; it is not surrounded by the mists of antiquity as some other orders. It sprung up in England in the eighteenth century, and the first lodge in the United States was constituted at Baltimore in the year 1802, while the first regular lodge was not organized until March, 1819, by Thomas Wiley and his associates, and yet the power of its influence throughout the land is unparalleled. The merits of the order have been measured by the most crucial tests, and the result has been success. It has been shown that it is adapted to the needs, the wants and the necessities of the age and is constructed to unite the best interests of mankind. It embodies in a volume its capacity for doing good, and as we look over its work we can not be surprised at its success. There is no sectarianism, no politics, no creed and no religion, excepting the broad and comprehensive religion of loving mercy and doing good. It teaches in brief the fatherhood of God and the brotherhood of man; it makes no distinction; there is no political test; no heresy is taught and no treason is ever heard within its walls. It comprises only that which is highest, noblest and purest, it recognizes the fact that men as individuals, are dependent on each other, and one man should not enjoy all the good gifts of God. We should recognize the weakness and misfortunes of each other.

Fraternity is the corner stone on which the whole ground work of the order is based, and its influence is felt in every path of life, and when misfortune overtakes one, the fraternal hand of the whole order reaches out to him, disease is dispelled, the foul stain of slander is removed, the blow of a financial crash is softened, and so in every instance and circumstance its influence is felt. The tottering step is steadied and at the moment when the soul is about to be launched on the broad ocean of eternity, its influence is felt and it does not stop there for when the lines are "dust to dust" the hand is still there and now its work has only begun. The tears of sorrow and sympathy are mingled with those of the widow and orphan and the gruant spectre of want is driven away by the same fraternal hand. Figures are always dry but a few figures may be of some interest to the lovers of the order. At the meeting of the Grand Lodge of the United States which met at Indianapolis in 1875, the following report was made:

Up to the previous year, 685,963 members were relieved; 91,095 widows and their families were relieved and 60,776 deceased members were buried. There had been paid to widows' families in the year 1874, $60,885.99; $16,776 had been paid for the education of orphans; $223,645 had been paid for burying deceased members and for special relief $36,145 had been paid. The total lodge and encampment relief disbursements aggregated a total of $1,529,862.

Think what an amount of relief this sum afforded. The wail of the widow and orphan was stopped; the orphans were educated: the naked clothed, and the clutches of hunger loosened from the throat of the starving.

The figures given will prove interesting to all. What man can look at this work and say that a better duty could be performed than shown by the above figures. This is the work of 1874 and since that the work has been steadily increasing, for such has been the history of the order since the origin. Without any disparagement to any other order, the financial management of the I. O. O. F. is the best and most judicious and beneficial of all.

Some objection is made to the order on account of its secrets. It has no secrets, only a few which have been adopted and are necessary for self protection.

Churches, families, merchants and statesmen have their secrets. Would you call upon a family to disclose its secrets, or the merchant to show you his books and financial standing. The order has only such secrets as are necessary to recognize brothers and detect impostors. There is no obligation required which has any penalty which can be inflicted other than social ostracism, and the obligations are nothing more than a word of honor, and nothing in any of them interferes with your duty to your neighbor, your country, or your God. The secrets of the order of themselves, are as dry as the multiplication table, and have no object whatever, other than the one above named.

The symbols of the order are many and it is not expected that they be explained at length. Take for example, the first, the three links, which is the foundation on which the whole order rests, namely, "Friendship, Love and Truth." These are the corner-stones on which the structure rests, which are not like the crumbling sand-stone, nor the polished marble, which will in time return to dust, but like the everlasting granite, are imperishable, and these are used to teach the lessons of the order whose whole object is the benefit of fellowmen.

The order is sometimes condemned on account of the actions of some of its members, which is very unjust. You might as well condemn a church on account of any individual members, it is the fault of the individuals and not of the order. There was never a man passed through the order but what was a better man for having trod its paths. Odd fellowship is not a religion, but it fits and prepares the subject to entertain a feeling for the best religion. Another feature of the order is, it provides a field for the ladies, it recognizes the fact that the ladies of this century have a prominent place in the noblest works for the benefit of mankind, and generously provides a field for them, and no lady will object to her husband going to a lodge if she is sure—quite sure that he is at lodge.

The order has its social aims which are commendable, and if no other result were every accomplished than to collect this audience for an evening of social enjoyment it would surely have accomplished at least one good result.

The address was delivered in Mr. Bell's happy manner and well deserved the hearty plaudits it received.

Miss Carrie Johnson followed the speakers with a reading selection entitled Archie Dean, which was read in admirable style, and was heartily received. The male quartette rendered another song, "Essie Dear," after which supper was announced and a splendid repast was furnished to all, and then the ball room was visited, where every one enjoyed themselves until the wee sma' hours, when the company dispersed more than well satisfied with the evening's entertainment, and earnestly hoping for repetition of the same.

Unfortunate.

S. S. Sauer, a young man aged about twenty-four, living on Fairfield avenue, had a falling fit on Calhoun street yesterday morning at about half past 10 o'clock, in front of Mergentheim's. He suddenly threw up his hands, whirled around once or twice, and fell with terrific violence directly on his face upon the flagging, his head coming in contact with a box which was standing on the curb. The blood gushed from his nose and mouth, likewise from a cut on the side of his head, and he was a sickening sight to look at, while the froth issued from his mouth in connection with the blood.

Willing hands picked him up and an express wagon was procured, an improvised couch was made and he was taken to his home. Dr. Heuchling was on the street at the time and was called to attend to the sufferer. He was at first inclined to think that the bridge of the nose was broken, but subsequent examination showed that no fracture existed, and besides a general feeling of soreness about the face the man will be all right again in a few days. He was some time ago subject to attacks of the same kind, but had been treating for them and had not had a fit for eleven months until yesterday.

Serious Accident.

George Beamer, of the firm of Beamer & Ehrman, wagon makers, on the corner of Clay and Main street, met with a very painful accident yesterday. While splitting a stick of wood with a hand axe the ax glanced off, striking Mr. Beamer on the instep, cutting through the boot to the bone, severing a sinew and a large artery. The bleeding was very profuse and could not be stopped until the arrival of Dr. Anderson, who was immediately sent for. The wound is a very painful one, and will confine Mr. Beamer to the house for a month or more, and it is more than probable that the severing of the sinew will perhaps have permanently injurious effects.

Andrew Sullivan returned to his home in Peru to-day, having been here to attend the funeral of his brother James, who was killed at Chicago last week.

THE DAY AFTER.

Thanksgiving Bummers Before the Mayor.

The Usual Results of Much Bad Whisky.

Chas. Muldoon called on the mayor this morning. Last evening he called on Mary Britcher, and escorted her from a terpischorean *soiree* to the *maison de joie* at Lafayette Hall. He remained a very short time, went away, and came back again, but the festive maiden would not admit him, so he proceeded to admit himself, which he did by knocking so many panels out of the door that the door, as a door, practically ceased to exist. He then walked in and asked Mary whether she wanted to get thrown down stairs. Mary didn't give the matter much thought, but at once concluded that that wasn't just exactly what she wanted.

"Well, I'll just throw you down and sit on you!" which he did.

"I'll just sit on you [$10 worth." Chas. and Diehl went out together.

Henry Rinewelt frequently, regularly and irresistibly gets drunk and thumps hairpins and sawdust and such stuff out of his wife. He did that last night and then came over and slept at the station house. This morning the mayor tried to talk him to death and succeeded in talking him to jail.

Chas. Johnson admitted that Quillivan was about right in saying that he was drunk. The mayor fixed the matter up by charging him $10.

Joe Felger was drunk. There is no point to this, excepting the point he made for the jail.

Thos. Baldwin came up to the mayor yesterday morning and wanted to file an affidavit against a man for being drunk.

The affidavit was signed by the same man who was charged in the affidavit.

"Well, who is this man that was drunk?" asked Colerick.

"Be gad its meself."

"Yourself?"

"Yes-sur, I'm dhrunk! I hev been dhrunk for a week, and I want to go to jail. If I kin get this dommed stuff out of my hide I'm all right, but if I go out now I'll be dhrunk again in twinty minutes."

The mayor sent him over.

BREVITIES.

The slaughter is over.

Four dances last night.

Conover is not on the streets today.

All the churches kept open house yesterday.

State Treasurer Fleming went to New York last night.

Supt. Metheany, of the Grand Rapids road, spent Thanksgiving day in Fort Wayne.

The sidewalk in front of Councilman Hettler's new house on East Lewis street, needs repairing.

The recent rains were sent by order of Jesse L. Williams, who wishes to demonstrate that his wells are not a failure.

Miss Amelia Pfeiffer, of Buffalo, N. Y., who has been visiting in the city for seven weeks, will return home this week.

There was a raffle in the vicinity of the south depot on Thanksgiving Eve, and Dan Campbell, the popular foreman of the Wabash blacksmith shop, carried off the prize, which was a goose.

Reineke's orchestra will give their opening concert at Arion hall next Sunday. The orchestra is composed of 16 pieces, and some rare musical treats can be expected during the winter. The entertainment will be first class, and of a high order.

Two couple at least had reason to be thankful yesterday if the complaints were true. Mr. and Mrs. Jacob Letter and Mr. and Mrs. Henry L. Miller had the matrimonial bonds busted wide open yesterday in the circuit court, and now they are four.

Last evening, just as a Wabash passenger train reached Huntington, some brute heaved a brick through a car window. Happily no one was hurt.

Mr. and Mrs. Tyler left for Napoleon, O., to-day, to attend the funeral of Romeon Tyler, brother of Mr. Tyler, who died at that place yesterday.

President Evans, of the Terre Haute and Fort Wayne road returned from Marion yesterday.

Mrs. Pratt, the Broadway milliner, has fallen joint heir to an estate valued at $20,000, situated in Pennsylvania.

By a put up job a rumor was circulated on Wednesday that Shaffer, the billiardist, was in the city, and the "Home" and the Aveline House was besieged for two hours by those anxious to see him. Capt. Smith, Fred Boltz, Mike Welch and others bit readily. So did Dice Strodel.

The Berry Street M. E. social will be held at the residence of Charles F. Taylor, at No. 15 Douglas avenue, to-night.

The A. C. L. L. D. P. A. held their third annual ball at Arion Hall on Wednesday night. Over two hundred tickets were sold, but owing to the inclemency of the weather a much smaller number of people were in attendance. The ball was nevertheless a complete success.

FLEMING---DINNEN.

A Brilliant Matrimonial Event Yesterday.

The Ceremony, Reception and Presents--A Happy Affair.

Yesterday morning the Cathedral was crowded to its utmost capacity, the occasion being the marriage of Catherine S., daughter of State Treasurer Fleming and Dr. James M. Dinnen, a popular young physician of this city. The ceremony was performed by the Rev. Father Dinnen, brother of the groom, according to the imposing rites of the Catholic church, after which a wedding breakfast was served at the elegant residence of the bride's father, West Berry street, to a few relatives and friends. A number of valuable presents were received and the affair passed off in a most delightful manner. Dr. Dinnen and his fair bride left last evening for Cincinnati and Louisville, followed by the best wishes of a large circle of friends.

AMUSEMENTS.

THE GREAT AUTOMATIC CITY,

now on exhibition at No. 1 Keystone block, is one of the most complicated and interesting pieces of mechanism in the world. It is well worth the time it takes and money it costs to see it. We cheerfully recommend our readers to give it a close inspection, as it is but once in a life time that it can be seen.

The Sængerbund.

The Sængerbund gave a very pleasant entertainment last night at their hall. The exercises were varied and interesting, noticeable among which were a song by Miss Carrie Victh and Emile Young, entitled, "Oh, Could I Teach the Nightingale," a "Rhapsodie" piano solo by Miss Young, and a four hand piano duett by Miss Young and Mrs. Meyers. After the music dancing was the order of the evening, and it was continued until an early hour this morning. The Sængerbund generally mean to have a good time when they "set out for it," and last evening's entertainment was a most decided success in every feature.

THE RAILROADS.

The Wabash, St. Louis and Pacific Railroad has been divided into two divisions. The lines and branches east of the Mississippi River will constitute the "Eastern Division," and the lines and branches west of the Mississippi River will constitute the "Western Division." The following appointments are hereby announced: R. Andrews, General Supt. Eastern Division, Toledo. T. McKissock, Gen'l Supt. Western Division, St. Louis. E. A. Garvey, Chief Engineer, St. Louis. E. A. Garvey, Chief Engineer, St. Louis; A. C. Bird, General Freight Agent, St. Louis; M. Knight, Assistant Gen'l Freight Agent, St. Louis; C. K. Lord, Gen'l Ticket Agent, St. Louis; H. C. Townsend, General Passenger Agent, St. Louis; R. W. Green, Purchasing Agent, St. Louis; George F. Shepherd, Paymaster, St. Louis; J. M. Osborne, Commercial Agent, Toledo; C. W. Bradley, Commercial Agent, St. Louis; John C. Gault, General Manager.

Thanksgiving.

Thanksgiving Day was generally observed in this city. Business was generally suspended, most of the manufacturing institutions were shut down and the day was universally given up to feasting, merriment and social enjoyment. The streets, notwithstanding the humidity of the atmosphere, were thronged with pleasure seekers. The saloons were well patronized and a large amount of "booze" was punished.

In the evening Harmony Lodge I. O. O. F., the Sængerbund, the R. B. & S. Society and other social organizations gave balls which were largely attended and which passed off very pleasantly.

The churches were well attended Services were held at the Christian, the First Baptist, the Berry Street M. E., Trinity Episcopal and Emanuel's German Lutheran churches, and were deeply interesting.

On the whole the day was observed in a sensible and becoming manner.

FEED AND FROLIC.

Ball and Banqnet By the Harmony Lodge I. O. O. F.

Address By Hon. R. C. Bell--Literary and Musical Exercises.

A Feast of Reason and a Flow of Soul.

The event of the season was decidedly the grand reception and ball given by Harmony Lodge No. 19, I. O. O. F., at their hall in Harmony block last night.

The lodge room was decorated in a most beautiful manner, under the management of F. Fliegner. Festoons of evergreens from each corner of the room to the chandelier and festoons around the sides with wreaths on the walls encircling various pictures and "Welcome" in large evergreen letters on the wall at the head of the room combined to make the scene a beautiful one to look at, while more tempting still on the north side of the hall running the full length was a table bountifully laden with the choicest delicacies, while the table itself was most beautifully decorated with flowers and greens, and the three links emblematic of the greatest virtues friendship, love and truth, were neatly worked in evergreens upon the center of the cloths.

The general committee on arrangements was James Liggett, F. L. Racine, Charles Comparet, Louis Vordermark and Joseph Hanson, while the ladies' committee consisted of Mrs. C. Grafmiller, Mrs. Dr. Loag and Mrs. George Wells, to whose faithful endeavors a large share of the enjoyment of the evening was due. Long before the time appointed for the exercises to begin, the hall was comfortably filled.

The exercises were opened at 8:15, by an appropriate prayer by the Rev. A. Marine, after which the male Quartette rendered a beautiful song entitled "Days slowly declining."

Prof. Shultz then favored the audience with an admirably rendered violin solo and received the applause which always follows any of his efforts.

Hon. R. C. Bell was then introduced and delivered the address of the evening. He said that it was not expected of him, nor would it be proper for him to detain them long, nor deliver a windy oration, but he intended giving merely a little talk. He said it gave him great pleasure to meet with the order and its friends, but he did not desire to offer any panegyric nor yet any eulogium on the order as it needs none. "By their fruits ye shall know them," then judge it by its fruits they are constantly before you. The order is of comparatively recent origin; it is not surrounded by the mists of antiquity as some other orders. It sprung up in England in the eighteenth century, and the first lodge in the United States was constituted at Baltimore in the year 1802, while the first regular lodge was not organized until March, 1819, by Thomas Wiley and his associates, and yet the power of its influence throughout the land is unparalleled. The merits of the order have been measured by the most crucial tests, and the result has been success. It has been shown that it is adapted to the needs, the wants and the necessities of the age and is constructed to unite the best interests of mankind. It embodies in a volume its capacity for doing good, and as we look over its work we can not be surprised at its success. There is no sectarianism, no politics, no creed and no religion, excepting the broad and comprehensive religion of loving mercy and doing good. It teaches in brief the fatherhood of God and the brotherhood of man; it makes no distinction; there is no political test; no heresy is taught and no treason is ever heard within its walls. It comprises only that which is highest, noblest and purest, it recognizes the fact that men as individuals, are dependent on each other, and one man should not enjoy all the good gifts of God. We should recognize the weakness and misfortunes of each other.

Fraternity is the corner stone on which the whole ground work of the order is based, and its influance is felt in every path of life, and when misfortune overtakes one, the fraternal hand of the whole order reaches out to him, disease is dispelled, the foul stain of slander is removed, the blow of a financial crash is softened, and so in every instance and circumstance its influence is felt. The tottering step is steadied and at the moment when the soul is about to be launched on the broad ocean of eternity, its influence is felt and it does not stop there for when the lines are "dust to dust" the hand is still there and now its work has only begun. The tears of sorrow and sympathy are mingled with those of the widow and orphan and the guant spectre of want is driven away by the same fraternal hand. Figures are always dry but a few figures may be of some interest to the lovers of the order. At the meeting of the Grand Lodge of the United States which met at Indianapolis in 1875, the following report was made:

Up to the previous year, 685,963 members were relieved; 91,095 widows and their families were relieved and 60,776 deceased members were buried. There had been paid to widows' families in the year 1874, $60,885.90; $16,776 had been paid for the education of orphans; $223,545 had been paid for burying deceased members and for special relief $36,145 had been paid. The total lodge and encampment relief disbursements aggregated a total of $1,529,862.

Think what an amount of relief this sum afforded. The wail of the widow and orphan was stopped; the orphans were educated: the naked clothed, and the clutches of hunger loosened from the throat of the starving.

The figures given will prove interesting to all. What man can look at this work and say that a better duty could be performed than shown by the above figures. This is the work of 1874 and since that the work has been steadily increasing, for such has been the history of the order since the origin. Without any disparagement to any other order, the financial management of the I. O. O. F. is the best and most judicious and beneficial of all.

Some objection is made to the order on account of its secrets. It has no secrets, only a few which have been adopted and are necessary for self protection.

Churches, families, merchants and statesmen have their secrets. Would you call upon a family to disclose its secrets, or the merchant to show you his books and financial standing. The order has only such secrets as are necessary to recognize brothers and detect impostors. There is no obligation required which has any penalty which can be inflicted other than social ostracism, and the obligations are nothing more than a word of honor, and nothing in any of them interferes with your duty to your neighbor, your country, or your God. The secrets of the order of themselves, are as dry as the multiplication table, and have no object whatever, other than the one above named.

The symbols of the order are many and it is not expected that they be explained at length. Take for example, the first, the three links, which is the foundation on which the whole order rests, namely, "Friendship, Love and Truth." These are the corner-stones on which the structure rests, which are not like the crumbling sand-stone, nor the polished marble, which will in time return to dust, but like the everlasting granite, are imperishable, and these are used to teach the lessons of the order whose whole object is the benefit of fellowmen.

The order is sometimes condemned on account of the actions of some of its members, which is very unjust. You might as well condemn a church on account of any individual members, it is the fault of the individuals and not of the order. There was never a man passed through the order but what was a better man for having trod its paths. Odd fellowship is not a religion, but it fits and prepares the subject to entertain a feeling for the best religion. Another feature of the order is, it provides a field for the ladies, it recognizes the fact that the ladies of this century have a prominent place in the noblest works for the benefit of mankind, and generously provides a field for them, and no lady will object to her husband going to a lodge if she is sure—quite sure that he is at lodge.

The order has its social aims which are commendable, and if no other result were every accomplished than to collect this audience for an evening of social enjoyment it would surely have accomplished at least one good result.

The address was delivered in Mr. Bell's happy manner and well deserved the hearty plaudits it received.

Miss Carrie Johnson followed the speakers with a reading selection entitled Archie Dean, which was read in admirable style, and was heartily received. The male quartette rendered another song, "Essie Dear," after which supper was announced and a splendid repast was furnished to all, and then the ball room was visited, where every one enjoyed themselves until the wee sma' hours, when the company dispersed more than well satisfied with the evening's entertainment, and earnestly hoping for repetition of the same.

Unfortunate.

S. S. Sauer, a young man aged about twenty-four, living on Fairfield avenue, had a falling fit on Calhoun street yesterday morning at about half past 10 o'clock, in front of Mergentheim's. He suddenly threw up his hands, whirled around once or twice, and fell with terrific violence directly on his face upon the flagging, his head coming in contact with a box which was standing on the curb. The blood gushed from his nose and mouth, likewise from a cut on the side of his head, and he was a sickening sight to look at, while the froth issued from his mouth in connection with the blood.

Willing hands picked him up and an express wagon was procured, an improvised couch was made and he was taken to his home. Dr. Heuchling was on the street at the time and was called to attend to the sufferer. He was at first inclined to think that the bridge of the nose was broken, but subsequent examination showed that no fracture existed, and besides a general feeling of soreness about the face the man will be all right again in a few days. He was some time ago subject to attacks of the same kind, but had been treating for them and had not had a fit for eleven months until yesterday.

Serious Accident.

George Beamer, of the firm of Beamer & Ehrman, wagon makers, on the corner of Clay and Main street, met with a very painful accident yesterday. While splitting a stick of wood with a hand axe the ax glanced off, striking Mr. Beamer on the instep, cutting through the boot to the bone, severing a sinew and a large artery. The bleeding was very profuse and could not be stopped until the arrival of Dr. Anderson, who was immediately sent for. The wound is a very painful one, and will confine Mr. Beamer to the house for a month or more, and it is more than probable that the severing of the sinew will perhaps have permanently injurious effects.

Andrew Sullivan returned to his home in Peru to-day, having been here to attend the funeral of his brother James, who was killed at Chicago last week.

THE DAY AFTER.

Thanksgiving Bummers Before the Mayor.

The Usual Results of Much Bad Whisky.

Chas. Muldoon called on the mayor this morning. Last evening he called on Mary Britcher, and escorted her from a terpischorean *soiree* to the *maison de joie* at Lafayette Hall. He remained a very short time, went away, and came back again, but the festive maiden would not admit him, so he proceeded to admit himself, which he did by knocking so many panels out of the door that the door, as a door, practically ceased to exist. He then walked in and asked Mary whether she wanted to get thrown down stairs. Mary didn't give the matter much thought, but at once concluded that that wasn't just exactly what she wanted.

"Well, I'll just throw you down and sit on you!" which he did.

"I'll just sit on you $10 worth." Chas. and Diehl went out together.

Henry Rinewelt frequently, regularly and irresistibly gets drunk and thumps hairpins and sawdust and such stuff out of his wife. He did that last night and then came over and slept at the station house. This morning the mayor tried to talk him to death and succeeded in talking him to jail.

Chas. Johnson admitted that Quillivan was about right in saying that he was drunk. The mayor fixed the matter up by charging him $10.

Joe Felger was drunk. There is no point to this, excepting the point he made for the jail.

Thos. Baldwin came up to the mayor yesterday morning and wanted to file an affidavit against a man for being drunk.

The affidavit was signed by the same man who was charged in the affidavit.

"Well, who is this man that was drunk?" asked Colerick.

"Be gad its meself."

"Yourself?"

"Yes-sur, I'm dhrunk! I hev been dhrunk fer a week, and I want to go to jail. If I kin get this dommed stuff out of my hide I'm all right, but if I go out now I'll be dhrunk agin in twinty minutes."

The mayor sent him over.

FLEMING---DINNEN.

A Brilliant Matrimonial Event Yesterday.

The Ceremony, Reception and Presents—A Happy Affair.

Yesterday morning the Cathedral was crowded to its utmost capacity, the occasion being the marriage of Catherine S., daughter of State Treasurer Fleming and Dr. James M. Dinnen, a popular young physician of this city. The ceremony was performed by the Rev. Father Dinnen, brother of the groom, according to the imposing rites of the Catholic church, after which a wedding breakfast was served at the elegant residence of the bride's father, West Berry street, to a few relatives and friends. A number of valuable presents were received and the affair passed off in a most delightful manner. Dr. Dinnen and his fair bride left last evening for Cincinnati and Louisville, followed by the best wishes of a large circle of friends.

AMUSEMENTS.

THE GREAT AUTOMATIC CITY,

now on exhibition at No. 1 Keystone block, is one of the most complicated and interesting pieces of mechanism in the world. It is well worth the time it takes and money it costs to see it. We cheerfully recommend our readers to give it a close inspection, as it is but once in a life time that it can be seen.

The Sængerbund.

The Sængerbund gave a very pleasant entertainment last night at their hall. The exercises were varied and interesting, noticeable among which were a song by Miss Carrie Vieth and Emile Young, entitled, "Oh, Could I Teach the Nightingale," a "Rhapsodie" piano solo by Miss Young, and a four hand piano duett by Miss Young and Mrs. Meyers. After the music dancing was the order of the evening, and it was continued until an early hour this morning. The Sængerbund generally mean to have a good time when they "set out for it," and last evening's entertainment was a most decided success in every feature.

Thanksgiving.

Thanksgiving Day was generally observed in this city. Business was generally suspended, most of the manufacturing institutions were shut down and the day was universally given up to feasting, merriment and social enjoyment. The streets, notwithstanding the humidity of the atmosphere, were thronged with pleasure seekers. The saloons were well patronized and a large amount of "booze" was punished.

In the evening Harmony Lodge I. O. O. F., the Sængerbund, the R. B. & S. Society and other social organizations gave balls which were largely attended and which passed off very pleasantly.

The churches were well attended Services were held at the Christian, the First Baptist, the Berry Street M. E., Trinity Episcopal and Emanuel's German Lutheran churches, and were deeply interesting.

On the whole the day was observed in a sensible and becoming manner.
